

# Daniel Webster Alumni Foundation

November 4, 2014

Dear Alumni,

This year has flown by and we are finding once again it's time for the Webster Alumni Foundation Fall newsletter. Compared to the previous two years of preparing for Webster's 75th Celebration, this been a quiet year. The Foundation continued to help Webster's students by giving out scholarships to qualified students, helping Webster's FFA student members with various needs such as attending the National FFA Conference, and purchasing an additional carousel to continue the tradition of displaying student's photos from each graduating class. Additionally, the Foundation recently replaced the long deteriorating plaque honoring Webster's veterans who were killed-in-action. Names on the new plaque include those from WWII, Korea, Viet Nam and other conflicts to date. These were just a few projects that have served to keep us busy this past year. The Foundation was able to accomplish these projects because of our stewardship of monies we receive in membership dues and contributions to the Foundation. So here's a big **THANK YOU** for your help by either becoming a member or renewing your membership, and/or by contributing to your Webster Alumni Foundation.

The Alumni Foundation is excited to announce a new **Century Club Project**. For several years the Hammond organ in the Webster auditorium has not been working. The organ has been a part of Webster's rich tradition, being played at Talicades, class assemblies, graduation, etc. In researching the problem and repair of the organ, we have learned it was and still is a quality instrument very much worth repairing. Our Hammond organ is considered a theatrical organ, well suited to being played in venues such as Webster's auditorium. While this is one of our largest Century Club projects to date, we are confident that it will be a success as have other CC projects. A few past projects have been: stadium lighting, building of student pavilions, restoration of the bridges, and new curtains for the stage. So, please help us bring the Hammond back to life by filling out the attached form and returning it with your check and as always your contribution is tax deductible. We truly appreciate your help. All contributions of \$100 or more will receive recognition by including the contributor's name on a plaque to be placed on the organ.

If you haven't renewed your membership to the Webster Alumni Foundation, please use the enclosed membership form to do so. We also encourage you to come to our meetings on the second Monday of each month at 6:30 p.m. in the Webster cafeteria. We welcome new board members also, so if you are interested, please join us.

Sincerely

Donna Browne Savage

President, Webster Alumni Foundation
